

San Mateo County Community Health Improvement Plan (CHIP)

Prioritization Activity Results

November 2, 2023

Summary

CHIP Kick-Off Meeting Date: November 1, 2023

Total Meeting Participants: 92

Prioritization Activity Form Open November 1 at 6:00 pm to November 2 at 9 am.

Total Prioritization Activity Responses: 54

Health Topic Areas Identified During Seven Community Forums

(Arranged in alphabetical order)

- Access to Health Services
- Cancer
- Chronic Conditions (Heart Disease, Kidney Disease)
- Diabetes
- Mental Health and Mental Disorders
- Nutrition and Healthy Eating, Physical Activity
- Respiratory Diseases (Asthma, Other Lung Issues)
- Social Determinants of Health (Economy, Housing, Employment, Transportation)
- Substance Use (Alcohol and Drug Use, Tobacco Use)

Prioritization Activity Methodology

Based on the Hanlon Method (see link: <https://www.naccho.org/uploads/downloadable-resources/Guide-to-Prioritization-Techniques.pdf>)

CHIP Kick-Off participants were asked to assign a score of 1-3 to each health topic and criterion.

Criteria 1: Magnitude of the Issue

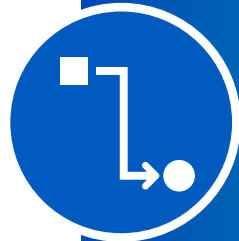

How many people in the community are or will be impacted?

How does the identified need impact health, quality of life, and the conditions in which we live, work, and play?

Has the need worsened over time?

Are there differences in how the issue is experienced between different communities?

- 1 – Least concerning
- 2 – Somewhat concerning
- 3 – Most concerning

Criteria 2: Ability to Impact

Can actionable and measurable goals be defined to address the health need? Are those goals achievable in a reasonable time frame?

Does San Mateo Public Health, Policy and Planning and its partners, including CBOs, have the expertise or resources to address the identified health need?

Are organizations already addressing the health issue?

- 1 – Least ability to impact
- 2 – Some ability to Impact
- 3 – Most ability to impact

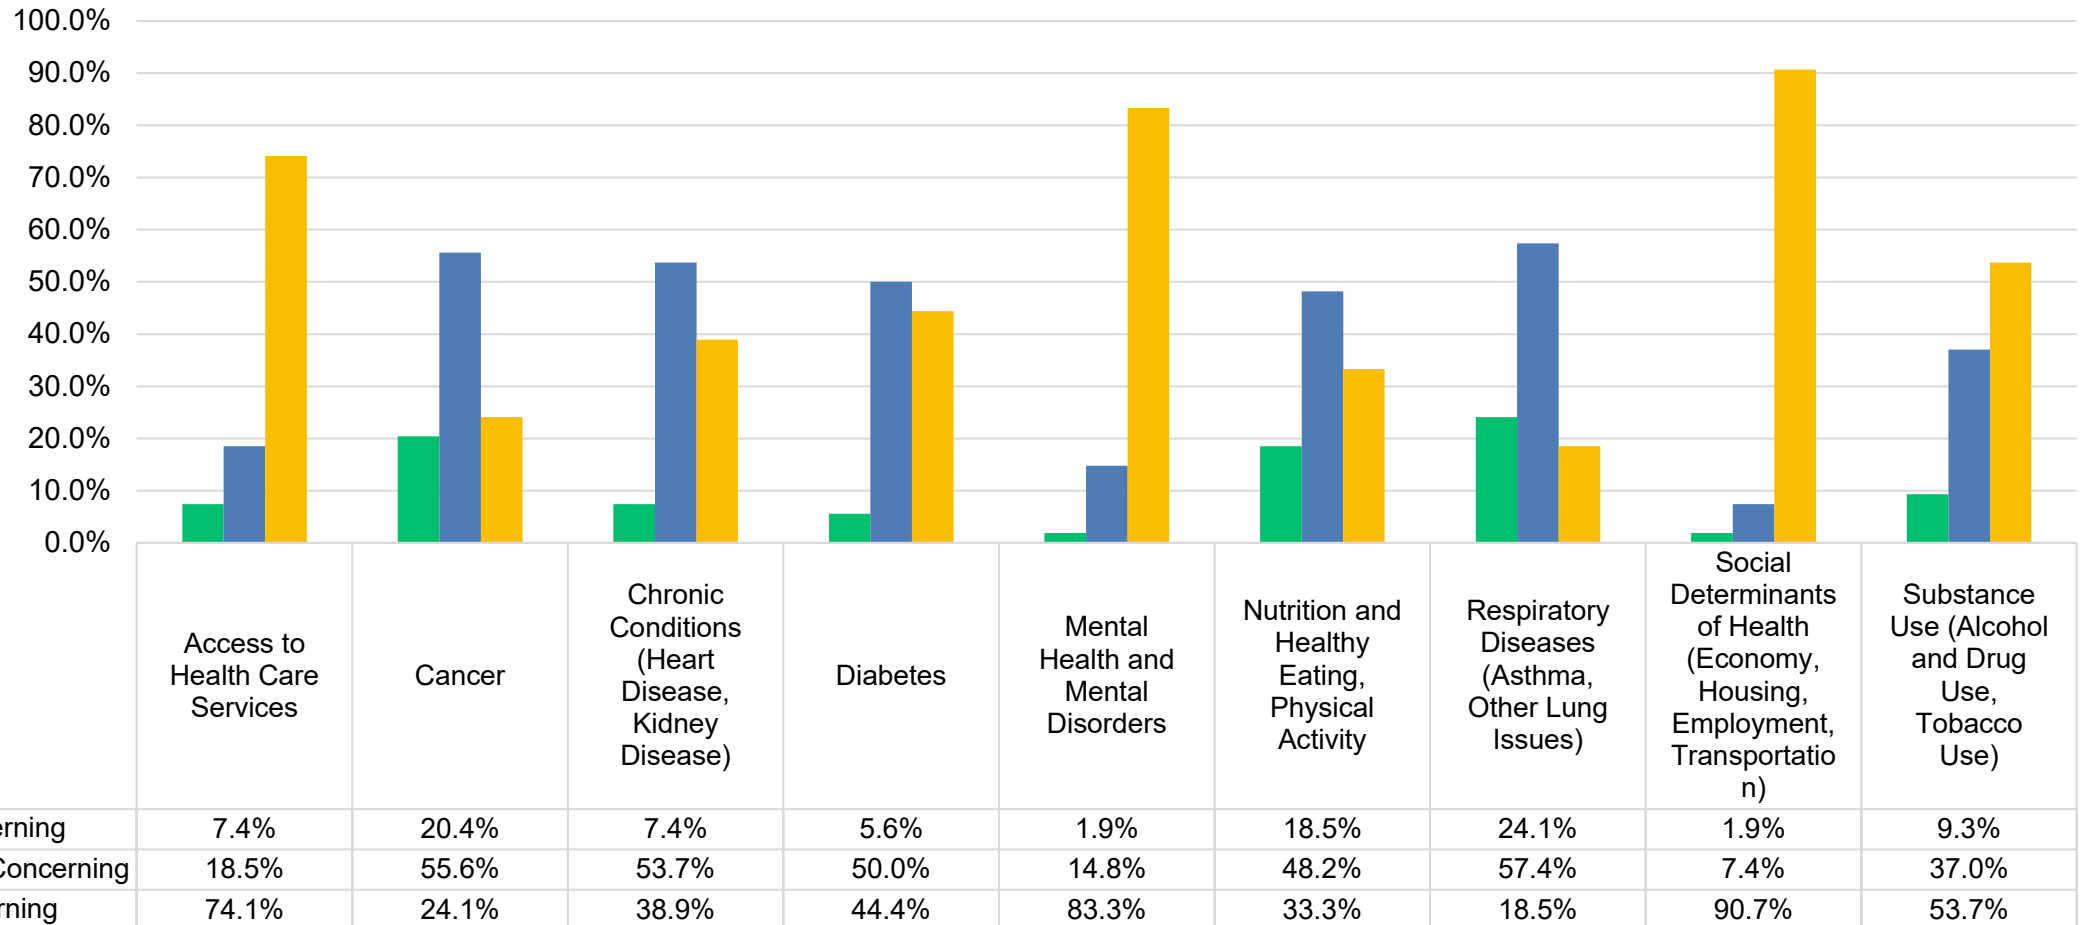

Total Summary Scores

During the prioritization activity, respondents scored each health topic area on a scale of 1 (least) to 3 (most) for two criteria: 1) Magnitude of Issue and 2) Ability to Impact. The summary score for each health topic area and criterion was calculated based on the average scores of 54 responses. The Total Summary Score for each health topic area is the average score of both criteria. The table below is sorted from highest to lowest based on the Total Summary Score for each health topic area.

Health Topic Area	Criteria 1: Magnitude of Issue	Criteria 2: Ability to Impact	Total Summary Score (Sorted)
Mental Health and Mental Disorders	2.81	2.48	2.65
Access to Health Care Services	2.67	2.46	2.56
Social Determinants of Health (Economy, Housing, Employment, Transportation)	2.89	2.04	2.46
Substance Use (Alcohol and Drug Use, Tobacco Use)	2.44	2.22	2.33
Diabetes	2.39	2.22	2.31
Nutrition and Healthy Eating, Physical Activity	2.15	2.24	2.19
Chronic Conditions (Heart Disease, Kidney Disease)	2.31	2.04	2.18
Respiratory Diseases (Asthma, Other Lung Issues)	1.94	1.85	1.90
Cancer	2.04	1.57	1.81

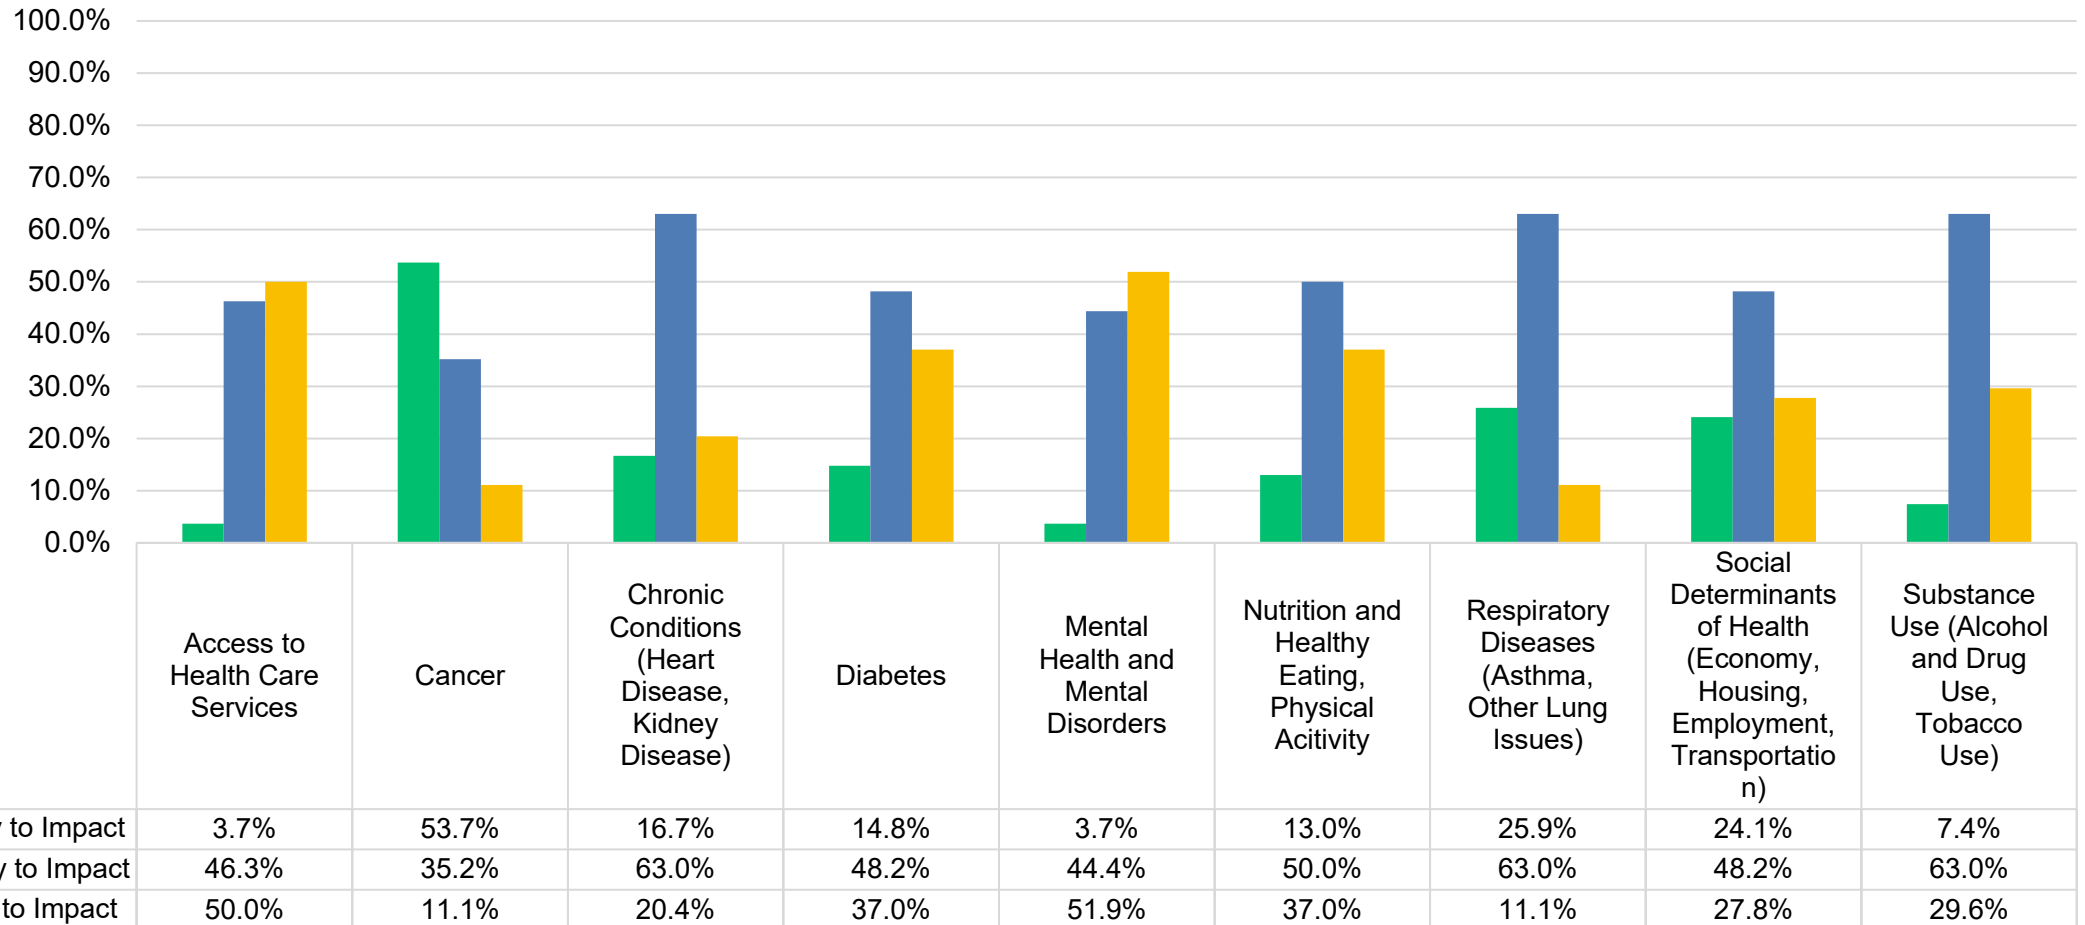

Magnitude of Issue (N=54)

How concerning is this issue?

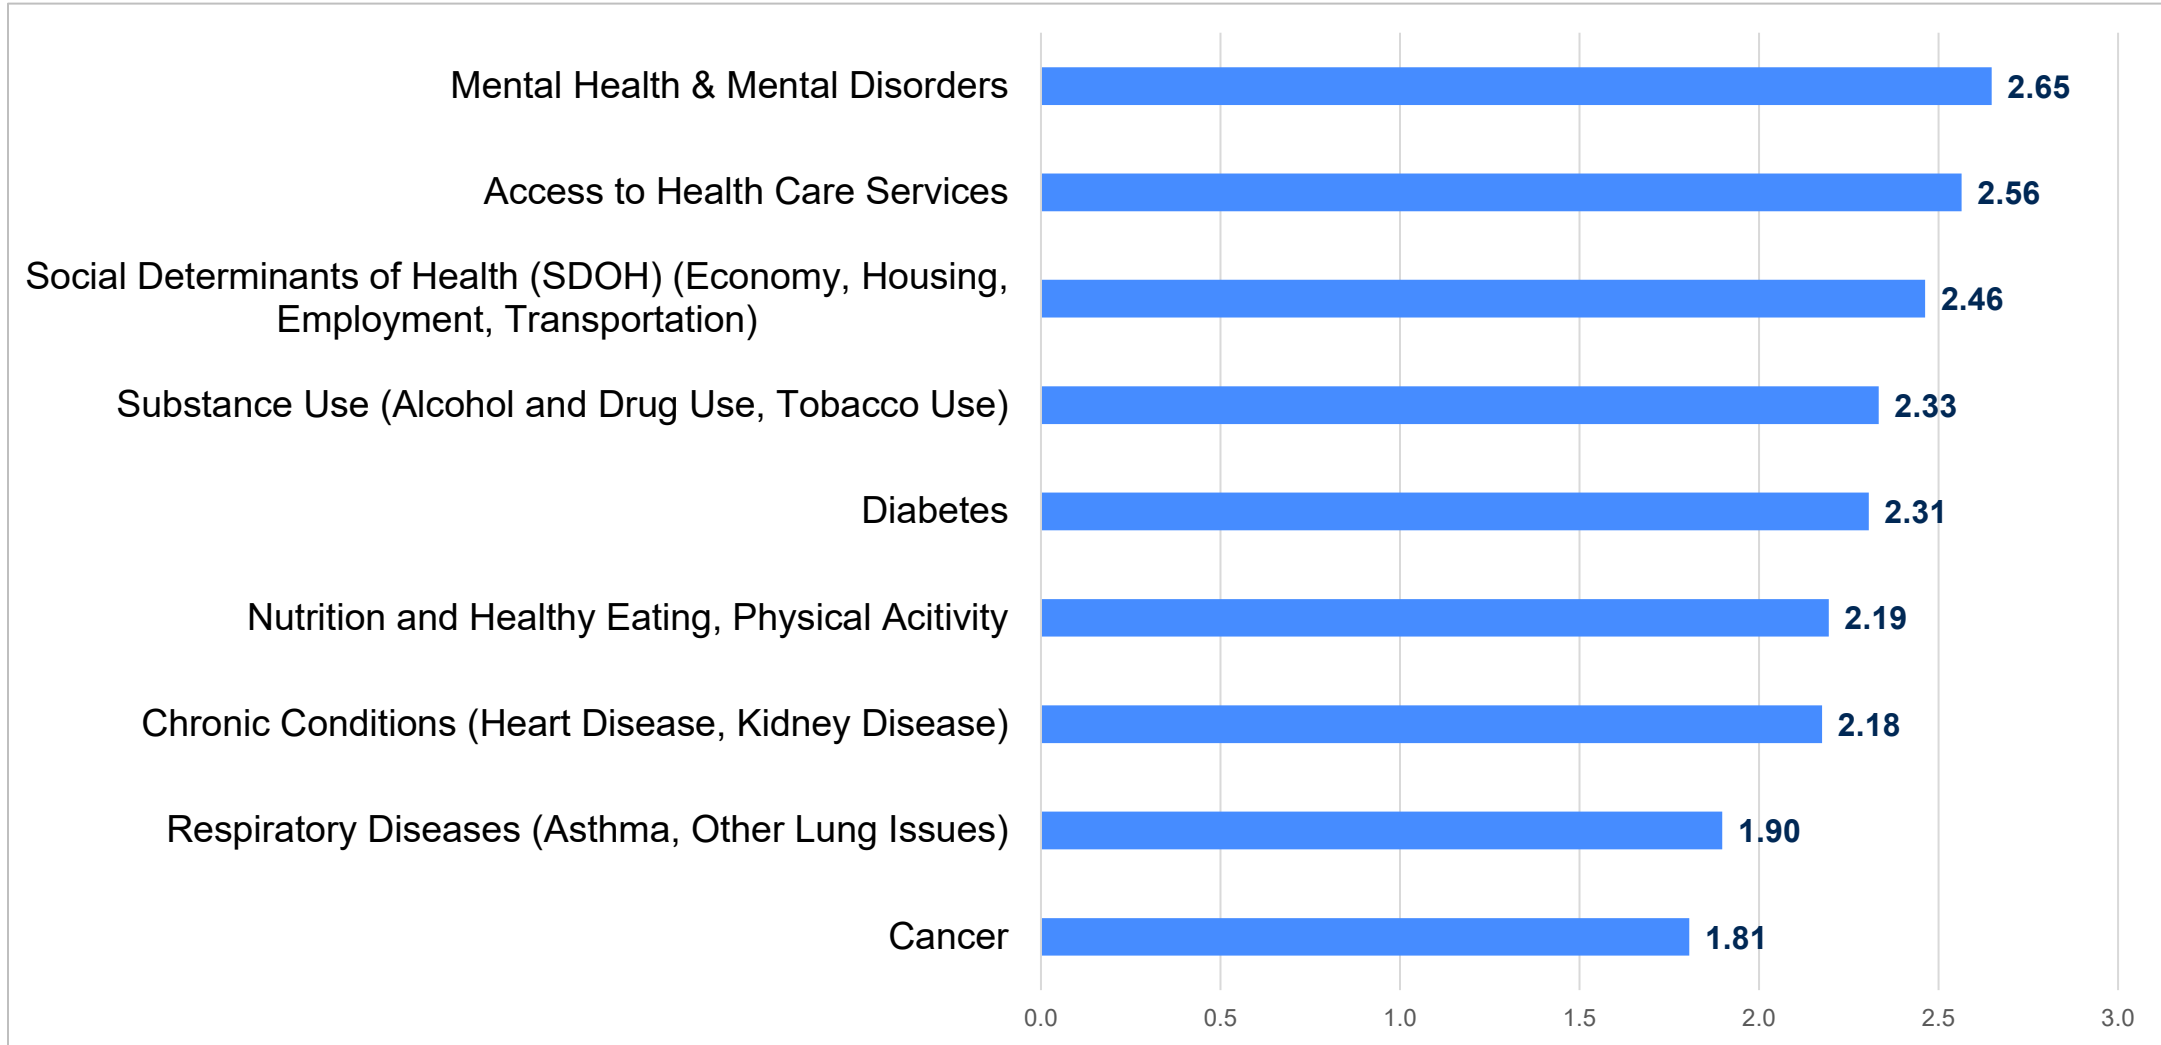

Ability to Impact (N=54)

How much ability do we have to impact this issue?

Overall Prioritization Ranking

Total Number of Responses: 54

Based on prioritization ranking, the top three priorities that will be the focus of the 2024-2026 CHIP:

- 1) Mental Health and Mental Disorders
- 2) Access to Health Care Services
- 3) Social Determinants of Health

Thank you
