Program Updates: 1. Half Moon Bay Library Project- BP Cuffs 2. Cancer Screenings Project 3. eCW Provider Templates 4. AMI Phones Project	1) Half Moon Bay Library Project- BP Cuffs <ul style="list-style-type: none"> • HCH/FH program is partnering with the Half Moon Bay library to provide blood pressure kits to library patrons • Goal: targeting library attendees who are farmworkers and people experiencing homelessness • Proposal between HCH/FH program and Half Moon Bay library is being drafted • Target date is to initiate the project starting in August 2) Cancer Screenings Project <ul style="list-style-type: none"> • HCH/FH program is collaborating with SMMC Population Health to evaluate detectable health disparities among farmworkers and people experiencing homelessness at SMMC • Analysis conducted between HCH/FH patient population compared to the SMMC general patient population • Goal: evaluate health disparities among cancer screenings/prevalence of cancer diagnosis for both patient populations 3) eCW Provider Templates <ul style="list-style-type: none"> • Creating resource document for SMMC providers to distribute to people experiencing homelessness and farmworkers during their appointments • Templates categorized by county regions: North County, Mid County, South County, Coast • Meeting with BI to confirm template transition into SMMC EPIC rollout 4) AMI Phones Project <ul style="list-style-type: none"> • Contract renewal with AMI Strategies to continue providing phone services to people experiencing homelessness in community • Knox Dashboard created to navigate phone usage, send notifications, reminders, track phone location, etc. to manage phone usage on staff's end 	

	<ul style="list-style-type: none"> Patients able to call and text SMMC staff, login to portal, transportation services to appointments, etc. 	
Q1 2023 Tables- Performance Measures	<p>Alejandra presented on the Q1 2023 performance measures, reporting how our program did for our selected outcome measures and highlighting some key performance measures</p> <ul style="list-style-type: none"> FQHC: Federally Qualified Health Centers Adult BMI and F/U- Committee members observed a gradual increase in this performance measure from quarter-to-quarter. It was reflected that in our previous meeting, we have seen an improvement from 2021 to 2022 as well. An assessment was done to analyze Adult BMI collected by location, which determined an increase in screenings from sites like Public Health San Mateo, Public Health Redwood City, and Coastside Clinic. Breast Cancer Screenings- committee acknowledged that the values for farmworkers has been consistently high year-over-year. It was also acknowledged that we are in the 1st quartile ranking for this performance measure. Diabetes- Communicating with BI regarding patients included in reporting criteria for report. Data validation- patients falling outside of Q1 date range removed, might be impacting total patients for 2023 Q1 reporting. Will provide follow-up on BI's feedback at upcoming meeting. 	
2022 UDS Breakdown Tables	<p>Hypertension and Diabetes breakdowns were generated using 2022 UDS data</p> <ul style="list-style-type: none"> UDS: Uniform Data System These table breakdowns reflected underlying health issues because these performance measures are reflective of a person's overall health Table breakdown categories: race, ethnicity, subcategory of homelessness After careful assessment, it was determined that the people who were categorized as living on the street or in a shelter had consistently worse health outcomes compared to an individual who was doubling up. Recognition was made that race and ethnicity categories need to be expanded in the healthcare system to make self-reporting more inclusive to all patients Interest was expressed in streamlining this table visualization for year-over-year comparison in the future 	
QI/QA Plan Amendment	<p>The QI/QA Plan Amendment will be discussed at the next meeting; not enough time to discuss at this meeting. An overview was providing of what the current QI Plan looks like, and "big picture" changes that will be made for next year. Committee members will have the opportunity to provide input about draft finalization at the next meeting.</p>	
Looking Ahead: 2023	<p>Updates were provided on what the program will be working on for the remainder of the year, and what the next committee meeting will cover:</p> <ul style="list-style-type: none"> HCH/FH preparing for UDS 2023 reporting year Review SMMC Patient Satisfaction Survey and Patient Grievances feedback at upcoming meeting 	

	<ul style="list-style-type: none"> • Collaborating with Patient Experience to stratify farmworkers and people experiencing homelessness data from SMMC Patient Grievances • Finalize QI/QA Plan 2023-2024 at upcoming meeting • Program initiative- provide trainings to SMMC internal staff and HCH/FH community partners <ul style="list-style-type: none"> • Customized trainings for individuals working directly with farmworkers and people experiencing homelessness • Meeting with different clinics/departments to disseminate program and quarterly information

Updated HRSA Health Center Data 2022

- 330 program performance data have been released for calendar year 2022. The adjusted quartile is an ordering of health centers' clinical performance compared to other health centers on the clinical quality measures (CQMs) that are reported to the UDS annually.
- Clinical performance for each measure is ranked from quartile 1 (highest 25% of reporting health centers) to quartile 4 (lowest 25% of reporting health centers).
- Our program changed quartile rankings for the following metrics:

Metric	2021 Adjusted Quartile Ranking	2022 Adjusted Quartile Ranking	Positive/Negative Change
Early Entry into Prenatal Care (1 st Trimester)	3	1	Positive
Cervical Cancer Screening	1	4	Negative
Adult BMI and Follow Up	4	3	Positive

Patient Satisfaction Survey Results

All Question Pods

SMMC Patient Satisfaction Survey Criteria

All adults (18+) are surveyed

No minors (confidential) 12-17

Only those with email/phone number (text, call)

Those who are empaneled (seen by PCP)

Provider visits only (MD, NP, PA, RT, Dentist)

No RN visits

Medical Practice – Provider Outpatient Question Pod

- Data derived from Q1 and Q2 2023
- Homeless and Farmworker status derived from annual HCH/FH Program Patient Master list
- Collected by NRC Health- SMMC Survey Vendor
 - Patients receive set of survey questions depending on which department they visit
 - Patients have 14 days to complete the survey; sent a series of reminders via call/text/email
 - Responses are scaled from “Yes definitely” through “No”
 - All questions require response- no skipping
 - Can view historical data on survey responses for people experiencing homelessness and farmworkers
