

Nursing Home Incident Command System (NHICS)

May 28th, 2020 | 9:00AM – 2:00PM

Purpose:

This workshop will cover essential concepts pertaining to the disaster management continuum including preparedness, mitigation, response, and recovery. Focus will be placed on the necessity of “All Hazards Planning” and utilization of a trusted emergency management model known as the Nursing Home Incident Command System (NHICS). Additionally, a comprehensive look at CNS Emergency Preparedness Rules of Participation will be reviewed during the program.

****Light breakfast will be provided**
